

Priority Issues

- Priority contaminants
 - Pathogens
 - Algae/DBP precursors and phosphorus
 - Sediment
 - Ammonia/de-icing agents
- Emerging contaminants
 - EDC/PCPPs
- Spills

Recommended Projects

- Development of Early Warning/ Emergency Response Plan – ICPRB (chair), COG, WSSC, Rockville
- Establishment of Urban issues partnership – FCWA (chair), MDE, COG, City of Frederick
- Establishment of Ag issues partnership/liaison – MDE (chair), VDH, EPA R3, PADEP
- Field studies on specific pathogen sources – EPA R3, WAD (chair), USGS, PADEP
- Field studies on DBP sources (land vs. water) – WSSC (chair), USGS, EPA R3
- Development of comprehensive source protection strategy for Potomac – FCWA, EPA R3 (chair), ICPRB
- Framework for addressing emerging contaminants – USGS, WSSC, FCWA, EPA ORD (chair?)
- Funding – ICPRB (chair), all
