THE POTOMAC RIVER BASIN

Drinking Water Source Protection Partnership

AMPLIFYING REGIONAL SOURCE WATER PROTECTION EFFORTS SINCE 2005
Addressing emerging challenges and ensuring a reliable water supply for the future requires vigilance and cooperation.

The Partnership of utilities, government agencies, and regional stakeholders provides the network and resources needed to strengthen individual organizations and advance our shared mission.

- Quarterly meetings and workshops to educate members about current research, regulatory affairs, new initiatives, and emerging issues.
- Forums to share best practices for improving water quality and minimizing operational costs.
- Focused work groups to address agricultural issues, early warning & emergency response, contaminants of emerging concern, urban & industrial issues, and water quality monitoring.
